

# Adore U (Adore you)

**Publisher: Kistner & Siegel**  
**Music & Lyrics: Lil' Rain**

## Chorus

Everyday (day), every nite (nite) I wanna see u baby,  
staying by my side.

I'm going down on my, on my knees 4 u.  
For your love I'd do it, for your sake, believe I do  
If you don't love me, why do u raise my hopes?  
No matter what happens, I can't let u go.  
U got it wrong, I didn't wanna hurt u .  
I wanna be all the world 2 u.

## Verse 1

I've not the faintest idea, why aren't u talkin' to me  
I'm try'nna be the perfect man, u always want me 2  
be  
I'm accustomed to u, ur a part of my life  
Everything I told u honey, I've nothing to hide.  
Ur my little angel, ur my little star.  
I'm still waiting every hour, ur so close 2 my heart  
All my life I've been waitin', for one moment in time.  
We're together I adore your eyes, I so adore your  
sweet smile (girl)  
I dont give a damn' about what somebody told u.  
I will ever be your man 'cause baby I love u.  
If the worse comes to the worst, I'm gonna hold u.  
I feel u far from believin' it. We walk through the  
world where nobody has been before.  
Turn back, the hands of time open every door.  
I swear I will lay u down and sure I love u more.  
2 retrieve your affinity.

## Chorus

## Verse 2

U look into my eyes, put me out of my misery.  
I have never told lies, I hope that u come back to me  
I want to spend my time in loving u forever.

No matter what happens, we must stick together.  
Come on trust in my words, give me your heart back  
again.

Kiss my lips, touch my hand, give me a second chance.  
My heart is bumpin', have a feeling that I've never felt,  
If I'm allowed to be with you, the luck is comin' to  
my world.

So far as I remember, u were perfectly happy  
To find someone like me, in a world full of traffic.  
I fulfill your dreams, its not only a taffy.  
You're the only one for me. We walk through a  
world where nobody has been before.  
Turn back, the hands of time open every door.  
I swear I will allay ur doubts and sure I love u more.  
To retrieve your affinity.

## Chorus

If you don't love me, why do you raise my hopes?  
No matter what happens, I can't let u go.  
U got it wrong, I didn't wanna hurt u.  
I wanna be all the world to u.
